# PAN ARABIA INFORMATION SYSTEM L.L.C

## TELECOM SYSTEM INTEGRATOR

## COMPANY PROFILE

# ABOUS **US**

PAIS is an ISO certified company which has been established in 2008 in order to cater the demand of latest technological innovations with quality services in the field of Telecommunications and IT infrastructure in the UAE region.

**Brief History**

PAISis formed by a group of professionals with an expertise to deliver products which are cost effective with proven technology of the modern day customers.

# CORE **COMPETENCIES**

One of our Key Success Drivers is Domain Knowledge and the continued acquisition of abroad platform of products, We believe that PAIS is unique in their pool of Recognized Products, Business Alliances & Strategic Partners. PAIS team, continuously focuses on

1. Product Development
2. Project Management
3. Support & Services

One of our Key Success Drivers is Domain Knowledge and the continued acquisition of a broad platform of products, We believe that our company is unique in their pool of Recognized Products, Business Alliances & Strategic Partners.

PAIS is firmly committed to providing an exceptional service to our clients; a service which is designed to encourage a mutually beneficial long term relationship. The reason for achieving our ability to communicate clearly and intelligently with our clients.
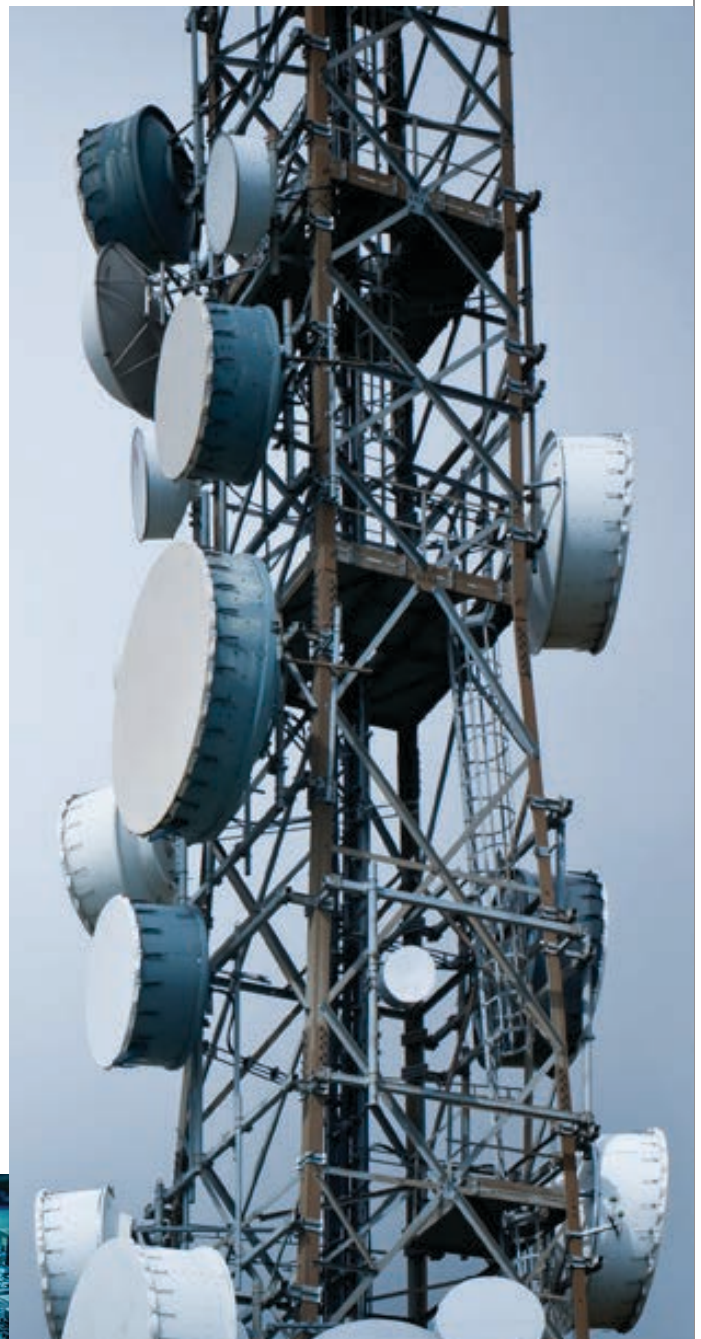

**Key Activities:**

1. Fibre optic system
2. Security system
3. ELV systems
4. System Integration

# TELECOM SYSTEM ENGINEERING

- Complete Telecom System Design and Integration of Wire and Wireless Networks
- Fiber Optic Cables System Design & Implantation
- Structured cable design & Implementation.
- CCTV & Surveillance Design and Implementation
- SMATV, PAGA, AV, Access Control System Design and Implementation
- Wireless Radio Design and Implementation.

## Globally Resourced Product Range

- Fiber Cables  (Single & Multi mode Indoor &
- Out Door cables, Areal cables), OPGW,
- ADSS Cable , Twisted Pair Cable , Co Axial Cable .
- Connectors, Patch panels, patch Chord & Pre-terminated cables,
- Information Outlets, Joint Enclosure,
- Telecom Rack and cabinets.
- Radios and wireless Devices
- Transceivers, Switches  Etc.
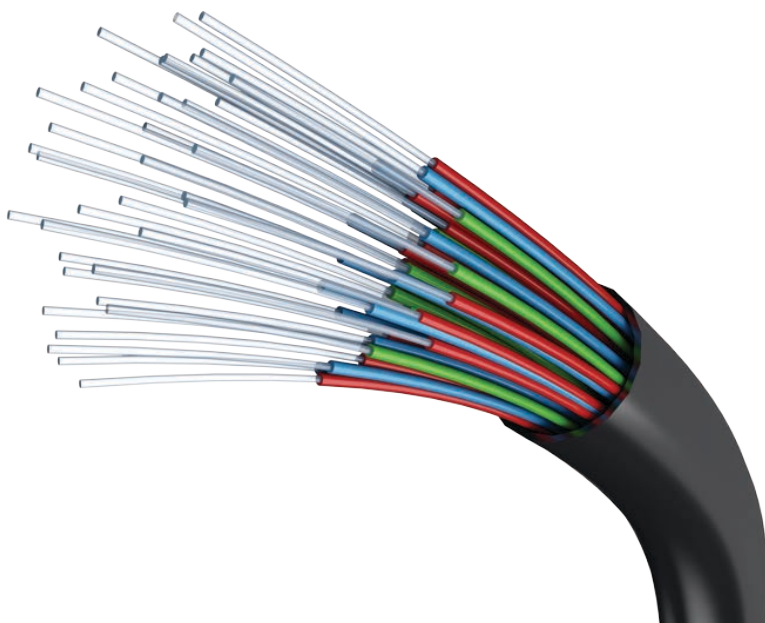

# FIBRE OPTIC
## SOLUTION

- Complete Turn Key solutions for Fiber Optic
- communications for Industrial Automation
- System (PLC, RTU, SCADA, DCS, DMS etc)
- Fiber Optic Cable and accessories
- Cable Installation
- Fusion Splicing and direct termination
- OTDR Testing
- Documentation and Commissioning
- Short and Long term Service and Maintenance
- Contracts
- On-site Training Services
- FOC for Security Solutions
- FOC for CCTV
- Emergency Network Shutdown

# FIBRE OPTIC
## SERVICES

PAIS provides design and planning service for the provision of Fibre optic infrastructure in industrial, residential and commercial applications. We are committed to providing the most innovative solutions, the highest calibre technology and the most reliable service to all our customers.

Our works include Supply, Installation, Testing & Commissioning and Trouble Shooting of Fiber Optic Cables, Joint Enclosures, Patch Cords, Connectors, Patch Panels, Racks.
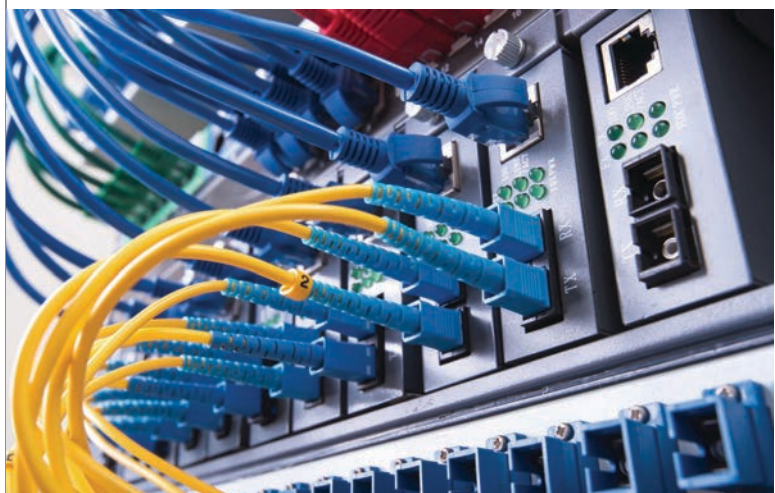

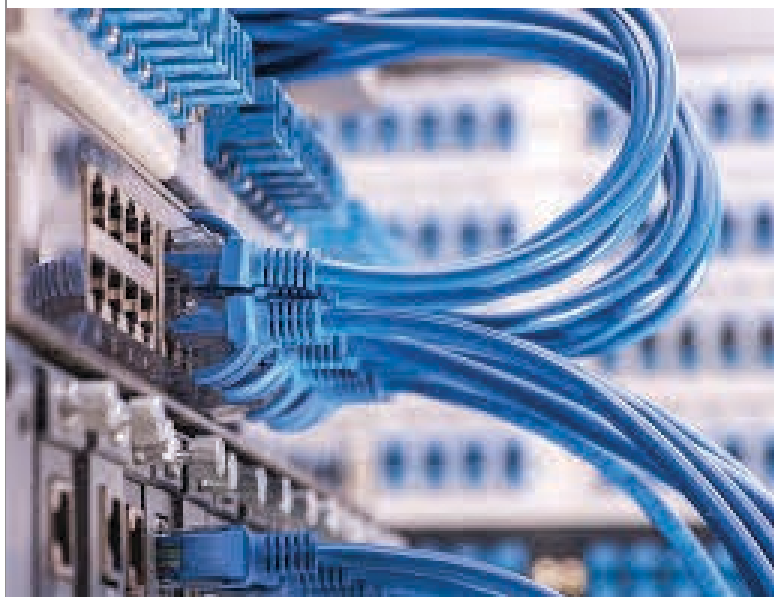

We have a large stock of Fiber Optic Cables, Joint Enclosures, Patch Cords, Connectors, Patch Panels, Racks and we would carry them throughout the place of work for any Emergencies. We are the supplier of the major Fiber Optic Cable Manufacturers

# STRUCTURED CABLE
# NETWORK

We are specialized in structured cabling of all kinds, from Category 6 / 6a / 7 to voice block wiring. In house expertise of our network and cabling designs and installation employ the latest technologies and practices, such as CAD, Software Design Tools and the latest standards and practices for project management.

- Supply & Installation
- Supply of accessories & Patch panel
- Trouble shooting
- Testing & Commissioning of UTP
- STP, FFTP Cable Solution

# STRUCTURED
# CABLING

- Complete network solution for Structured Cabling.

- We provide Supply, installation, trouble shooting, testing & commissioning of UTP, STP Cables, Ethernet switches,Routers, Connectors, Patch Cords, Patch Panels, Racks.

- Engineering Solution for SCN System , including ISP /OSP requirement for Telephone data system.

- Providing Containment ,Trunking, conduiting solution for SCN Networks

# SECURITY SYSTEMS AND **CCTV**

We can define, design, create and implement your new surveillance system or we can upgrade, repair or improve your existing CCTV video surveillance monitoring system.

- Supply & Installation
- Testing & Commissioning
- Designing of Wired & Wireless Access control and CCTV networking system
- Pole Installation, Foundation Installation
- Civil Works for CCTV

# CCTV **INSTALLATION**

## Components and Field Installation :-

- Engineering and Designing of Wired and Wireless CCTV networking system.
- Supply, Installation, Testing and Commissioning of CCTV. Fixed, Pole mounted Portable, Mobile on trolley
- Video encoders / decoders are used for analog to digital conversion and vice versa
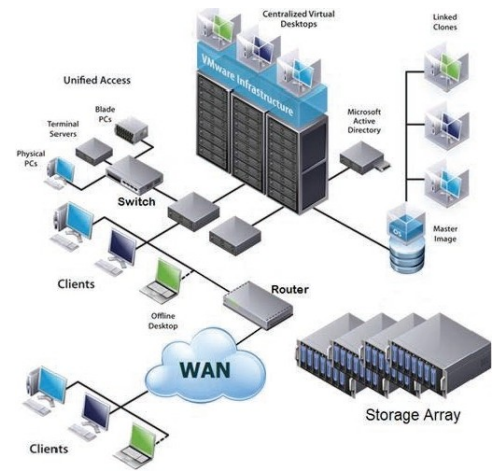

## Control Room :-

- Control room hosts a Video Wall to monitor incoming video.
- Operator workstation interfaced to the Network Video Recorder, to view and record images.
- Digital Video Management System is used as the monitoring
- platform of system
- Camera Control Keypad sends control signals to CCTV to pan, zoom & tilt
- File servers / Network Attached Storage is used for storage

# ACTIVE SYSTEMS (LAN/WAN)

Our LAN and WAN Connect services offer an economical but still fast and secure means to link together your enterprise, where users can interact with applications in exactly the same way and at exactly the same speed, regardless of their location. Using the most current technology, we can help you build seamless wide-area networks capable of supporting voice, data and video traffic.

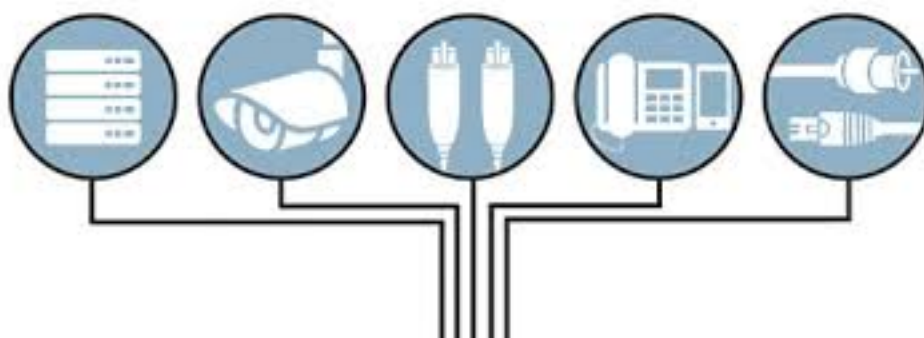

- Routers
- Switches
- Firewalls
- Wireless Access Point
- Industrial Grade wi-fi Devices

# ELV SYSTEM

- VOICE & IP TELEPHONY, PABX SYSTEMS

- IPTV & SMATV

- INTERCOMS & VIDEO PHONES

- AV SOLUTIONS PAGA SYSTEMS

- ACCESS CONTROL SYSTEMS
